HDAB Series Multilayer Ferrite Chip Beads / Chip Ferrite Beads

Features

Monolithic construction ensures high reliability;
Enables compact inductor design;
Magnetic shielding eliminates cross-coupling;
Non-directional design for easy mounting;
Excellent solderability and thermal resistance, suitable for reflow and wave soldering.

Applications

Widely use in Communications, Video and Audio, Computer, Remote control, etc.

Environmental Data

Operating Temperature: -40 °C ~ +85 °C (Including coils self-temperature rise)

How To Order

HDAB	160808	M	601	T	-	LF
①	②	③	④	⑤		⑥

① Series: HDAB

② Dimensions

③ Tolerance: (M:+/-25%)

④ Packag Style: (T:Tape & Reel)

⑤ Rated Current: (1R5:1500mA, 2R0:2000mA)

⑥ Lead Free
